

GREENERGY
—SOLAR SOLUTIONS—

Feel the power of the Sun

Shake Hands with Solar,
Say *Goodbye* to Bills!

Power Your Future with Greenergy Solar Solution!

KNOW ABOUT US

Greenenergy Solar Solutions is a leading provider of innovative solar solutions, integrating the latest technologies in the solar energy sector. We specialize in **on-grid, off-grid, AMC services, and EV charging stations**, ensuring reliable and efficient solar power solutions.

We deliver high-quality, grid-connected power to **homes, hospitals, schools, factories, entertainment zones, and farms**. Known for our expertise in design, installation, and reliability, we offer scalable solar solutions tailored to diverse energy needs.

With cutting-edge technology, smart monitoring, and advanced control systems, we provide turnkey solar EPC solutions, ensuring seamless and sustainable energy transformation.

OUR VISION

To create a greener planet by accelerating the global transition to clean and sustainable solar energy.

OUR MISSION

To deliver top-notch solar solutions with a strong commitment to excellence—both during sales and through exceptional after-sales service.

OUR SERVICES

On-Grid Solar Solutions

We offer reliable and cost-effective On-Grid Solar Systems for both

Residential & Commercial/Industrial needs

RESIDENTIAL

COMMERCIAL

INDUSTRIAL

WHAT INCLUDES IN RESIDENTIAL?

Houses, Apartments, Societies

- ◆ Lower monthly electricity bills
- ◆ Net metering benefits – sell extra energy
- ◆ Hassle-free installation and maintenance

ABOUT COMMERCIAL/INDUSTRIAL

Offices | Factories | Hospitals | Schools

- Huge cost savings ◆
- 24x7 performance monitoring ◆
- Customizable turnkey solutions ◆

OUR SERVICES

Empowering Homes with Solar – Subsidy
upto **₹78,000!**

For Individual House Owners
Subsidy up to ₹78,000/-

For Residential Societies / Apartments / Flats
Subsidy up to ₹18,000 Per Kw

We are Certified By

OUR SERVICES

Off-Grid Solar Solutions

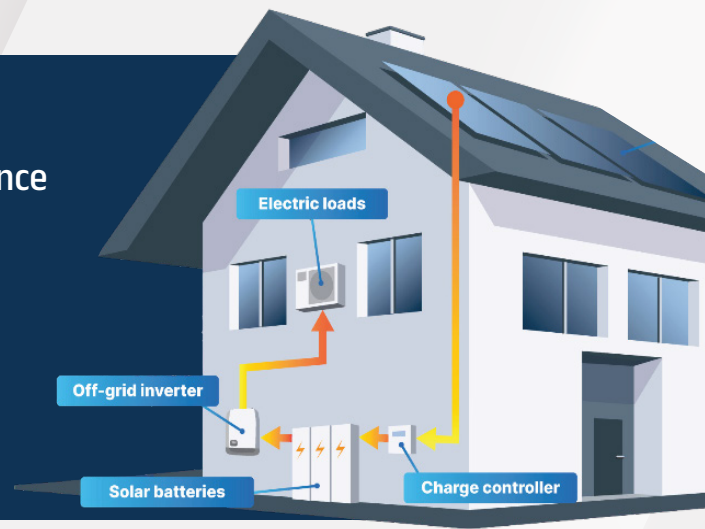

What is Off-Grid Solar?

Off-Grid Solar Systems are standalone power solutions that operate independently of the government electricity supply (GEB).

These systems include solar panels, batteries, and inverters, allowing you to generate, store, and use electricity without any connection to the main power grid.

Why Choose Off-Grid Solar?

- ◆ No GEB Connection Required – Total energy independence
- ◆ 24x7 power backup with battery storage
- ◆ Saves monthly bills and protects against rising tariffs
- ◆ Works even during blackouts and load-shedding
- ◆ Clean, renewable energy – Lower carbon footprint

Hybrid Solar Solutions

What is Hybrid Solar?

A smart solar system that uses solar energy, has battery backup, and can also draw power from GEB when needed.

OUR SERVICES

Solar Agriculture Pump

What is Solar Agriculture Pump?

A solar-powered water pump that helps farmers irrigate fields using free solar energy – no reliance on electricity or diesel.

SOLAR CARE PLAN

Smart Maintenance. Maximum Performance.

our solar system deserves care that matches its power. At Greenergy Solar Solutions, we offer a well-structured Solar Care Plan designed to ensure peak efficiency, longer life, and hassle-free performance of your solar installation.

Boosts solar power output

Protects your investment

Reduces system downtime

Ideal for any scale of installation

SOLAR CARE PLAN

Manual Cleaning Plan

A simple and cost-effective way to maintain your solar system:

- ◆ Regular on-site visits by trained professionals
- ◆ Panel cleaning to remove dust, debris, and bird droppings
- ◆ Visual inspection for wiring, inverter, and panel condition
- ◆ Recommended for residential and small-scale systems

Automatic Cleaning Plan

Our smart cleaning solution for commercial and large-scale systems:

- Auto ON/OFF operation ensures panels are cleaned without manual effort ◆
- Water tank monitoring to maintain proper levels and avoid wastage ◆
- Dust sensors (optional) for intelligent scheduling ◆
- Efficient, reliable, and low-maintenance system ◆

SOLAR CARE PLAN

Smart Online Monitoring System

Track. Analyze. Optimize.

We empower you with a real-time Online Monitoring System that keeps you connected to your solar performance—anytime, anywhere.

- ◆ Live Performance Tracking
- ◆ Smart Alerts & Notifications
- ◆ Mobile & Web Access
- ◆ Data History & Analytics

EV CHARGING SOLUTIONS

offers tailored EV Charging Station setups to meet the growing demand for electric mobility — from homes to highways.

AC Chargers (Slow Charger)

— Perfect for Daily Use

Societies

Common Parkings

Apartment

EV CHARGING SOLUTIONS

AC Chargers (Slow Charger)

– Perfect for Daily Use

Variants

- ◆ **3.3 kW** – Best for 2 & 3 Wheelers
- ◆ **7.4 kW** – Ideal for Sedan Cars
- ◆ **11 kW** – Suitable for Premium EVs

DC Chargers (Fast Charger)

-Fast & High-Speed Charging

Hotels

Restaurants

Theme Parks

Entertainment Zones

Variants

- ◆ **30 kW** – Suitable for Sedan Cars
- ◆ **60 kW** – Perfect for SUVs
- ◆ **120 kW** – For Heavy-Duty Vehicles & Commercial Fleets
- ◆ **240 kW** – For Heavy-Duty Vehicles & Commercial Fleets

Hybrid EV Charger – 14 kW

One Charger. Multiple Vehicles. Maximum Convenience.

Our 14 kW Hybrid Charger is a smart all-in-one solution designed to charge:

2-Wheelers | 3-Wheelers | 4-Wheelers
